

**ARIZONA SOARING ASSOCIATION
AVIATION OXYGEN FILL
FULL RELEASE AND ASSUMPTION OF RISK**

The undersigned Member of Arizona Soaring Association, (an Arizona not for profit corporation, hereinafter ASA) agrees as follows:

1. That in consideration for Member being authorized to use the ASA aviation oxygen system to recharge a glider or airplane's oxygen system, the equipment using Member recites that the following are true:
 - a. Member has received training in the use of the ASA oxygen fill system sufficient to Member's satisfaction and Member understands and accepts the risks of using the ASA oxygen fill system.
 - b. That Member realizes that the ASA aviation oxygen system may be dangerous and that ASA makes no warranty that the system is properly designed, built or maintained. That such system may cause serious injury or death due to foreseen or unforeseen defects in equipment or procedures.
2. That the Member hereby waives any and all liability which may arise from such use for indirect, direct, special, consequential, compensatory and punitive damages from ASA, its Directors, Officers, Agents and Volunteers and agrees to indemnify the foregoing against all claims or liabilities asserted by others arising from or in any manner related to activities associated with such use. This document is to be construed as Member's full assumption of risk associated with the use and full waiver of any right to recover any and all damages from ASA, its Directors, Officers, Agents and Volunteers and is binding on Member's heirs, assigns and estate.

I HAVE READ THIS ENTIRE DOCUMENT AND UNDERSTAND ITS CONTENTS.
